The Faculty of Natural Sciences invites applications for a

**Tenure Track University Professorship**
**(Salary Scale W2 NBesO leading to a W2)**
in Phytophotonics

to start at the next possible date. The initial appointment will be for 5 years. After positive evaluation the candidate will receive a tenured professorship on the salary scale W2.

The job announcement is part of the Bund-Länder-Programm zur Förderung des wissenschaftlichen Nachwuchses (federal and state program for the promotion of early-career scientists). It aims at researchers at an early career stage with an outstanding potential for a successful career in science.

The successful candidate's scientific activities will be directed towards the development of optical technologies in plant production and plant biotechnology based on biological and engineering sciences. Therefore, experience e.g. in the development of imaging technologies and technical sensors (non-invasive measurements of plant properties, phenotyping, phytomonitoring) or of tailored-light technologies are highly desirable. The successful candidate will teach courses in biological and optical study courses. We expect that our new colleague will have interest in interdisciplinary collaboration, especially in the research initiative Soil-Plant-Man. Applicants will be highly experienced at the interface of biology and engineering with an orientation towards plant production systems.

Conditions of appointment are in accordance with the Higher Education Act of Lower Saxony (Niedersächsisches Hochschulgesetz - NHG). Details will be explained on request.

Part time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Equally qualified candidates with disabilities will be given preference. Applications from abroad are especially welcome.

In its mission statement, Leibniz Universität Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places major value on the intensive guidance and support of its students and on the university's close ties to the region and to Lower Saxony. Its professors are thus expected to take up residence in the Region of Hannover.
Further information is available from Prof. E. Maiß (Tel. +49 511 762 3635, Email: maiss@ipp.uni-hannover.de).

Please submit your full application until 11th of January 2019 via the Appointment Portal of the Leibniz Universität Hannover at: https://berufungen.uni-hannover.de
