The Faculty of Natural Sciences invites applications for a

**University Professorship (m/f/d) of Salary Scale W3 NBesO in Technical Chemistry**

starting as soon as possible.

The successful candidate shall represent the subject “Technical Chemistry” in research and teaching. The research focus should lie in a topical area of biotechnologically orientated Technical Chemistry. The research concept should complement research activities of the chemical institutes in the fields of bioprocess engineering and biomedical research in Hannover in a complementary manner. The active participation in the Leibniz Research Center of Biomolecular Drug Research (BMWZ) and Lower Saxony Centre of Biomedical Engineering, Implant, Research and Development (NIFE) is expected.

The professorship is engaged in the teaching responsibilities of the Institute, offering Technical Chemistry education in the B.Sc. and M.Sc. programmes in Chemistry and Life Sciences as well as the M.Sc. programmes of Molecular Microbiology and Food Research and Development. Courses are currently given mainly in German. Thus, profound German language skills are required. Some courses should be held in English.

General responsibilities and conditions of appointment apply, in accordance with the Lower Saxony Higher Education Act (Niedersächsisches Hochschulgesetz - NHG).

Part-time employment can be arranged upon request.

As an equal opportunities employer, Leibniz University Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Preference will be given to equally qualified candidates with disabilities.

In its mission statement, Leibniz University Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places significant value on the intensive guidance and support of its students and on the university's close ties to the region and to Lower Saxony. Its professors are thus expected to be based in the Hannover Region.

Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will generally be given an employment contract.

For further information please contact Prof. Kirschning (Tel.: 0511 762-4614, Email: andreas.kirschning@oci.uni-hannover.de).

Please submit your full application until May 3rd, 2019 via the Appointment Portal of the Leibniz Universität Hannover at: [https://berufungen.uni-hannover.de](https://berufungen.uni-hannover.de)
