The Institute of Horticultural Production Systems / The Faculty of Natural Sciences at the Leibniz Universität Hannover invites applications for a position of a

Junior Professorship (Salary Scale W 1 NBesO)

in Phytopathology / Mycology

starting at the next possible date. The position is limited to three years (with an extension option for a further three years).

The applicant:

• contributes to research in the field of fungal infections in plants and insects, as well as in the diagnosis and the control of fungal infections,
• contributes to teaching of "Phytopathology / Mycology" in the bachelor’s and master’s degree courses Plant Biotechnology, Horticulture and International Horticulture
• guides BSc, MSc and doctoral theses,
• contributes to the self-administration of the institute and faculty.

Conditions of appointment are in accordance with § 30, Niedersachsen Higher Education Act (NHG).

Part-time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Equally qualified candidates with disabilities will be given preference.

Further information is available from the Head of the Search Committee Prof. Dr. Edgar Maiß, Institute of Horticultural Production Systems, Phone 0511 7623635, maiss@ipp.uni-hannover.de

Please submit your full application with the usual documents by email to berufungen@nat.uni-hannover.de until 25.08.2017
