The Faculty of Natural Sciences invites applications for a

**University Professorship (Salary Scale W 3 NBesO)**
in Biology Education

starting as soon as possible.

We look for a motivated candidate that will be in charge of the department of Biology Education in research and teaching. The successful candidate will be expected for giving the department a research profile that will be noticed nationally and internationally. Also an interdisciplinary collaboration is expected, especially with the other departments of the Institute for Science Education (strengthening the fields of scientific inquiry, collaborative learning, learning with digital tools or health and education) but also with the Leibniz School of Education. A collaboration with the Central Facility for Biology (ZEB) is demanded.

To qualify for the position, applicants will be required to prove excellence in research by an outstanding doctoral/PhD thesis preferable in the field of biology education as well as a postdoctoral thesis (Habilitation) or similar research achievements in science education. We further expect teaching experience in Biology Education at university level and at least three years of teaching experience at secondary level or adequate pedagogical experience or experience in empirical research that are in par with the tasks. Achievements in research are proved in publications in relevant journals, preferably internationally. Experiences in acquiring third-party funds are desired.

Conditions of appointment are in accordance with § 25, Niedersachsen Higher Education Act (NHG).

Part-time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Equally qualified candidates with disabilities will be given preference.

In its mission statement, Leibniz Universität Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places major value on the intensive guidance and support of its students and on the university's close ties to the region and to Niedersachsen. Its professors are thus expected to take up residence in the Region of Hannover.
Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will be given an employment contract.

Further information is available from Prof. Dr. Sascha Schanze, Phone: +49 (0) 511 762-18811, Email: schanze@idn.uni-hannover.de.

Please submit your full application with the usual documents by Email to berufungen@nat.uni-hannover.de until December 4th, 2017.
