The Faculty of Natural Sciences invites applications for a

**University Professorship (Salary Scale W 2 NBesO)**
in Food Development and Food Quality

starting as soon as possible.

The applicant (f/m) should be characterized by current basic and application-oriented work in the field of research in food development and food quality especially resource efficiency, sustainability, and value chain. She/he should complement the faculty’s existing research focuses and methodological competences concerning.

Willingness regarding interdisciplinary collaboration with local institutions is expected. The applicant should represent the field of food development and food quality in the new teaching degree program M.Sc. food research and development as well as the consecutive teaching degree programs B.Tec., Ed. and M.Sc. of education for vocational schools, both with specialisation on food science.

Conditions of appointment are in accordance with § 25, Niedersachsen Higher Education Act (NHG).

Part-time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Equally qualified candidates with disabilities will be given preference.

In its mission statement, Leibniz Universität Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places major value on the intensive guidance and support of its students and on the university’s close ties to the region and to Niedersachsen. Its professors are thus expected to take up residence in the Region of Hannover.

Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will be given an employment contract.

Further information is available from Prof. Dr. Andreas Hahn,
