The Faculty of Natural Science invites applications for a

**University Professorship (Salary Scale W 2 NBesO) in Analytical Chemistry of Solid-State Compounds**

starting as soon as possible.

The prospective holder of the position shall pursue research in the field of analytical chemistry of solid-state compounds and materials and shall represent the subject „Analytical Chemistry“ in teaching. The research shall focus on the application of modern methods for the analytical investigation of materials (using, for example, synchrotron radiation) and/or on the development of materials for analytical applications or as sensors. The research concept shall complement the research of the institutes of Chemistry and of the University in strategically important areas, for example in the fields of Bioanalytics/Biosensors, Biomedical Engineering or Optical Materials. The active participation in Leibniz Research Centers of the University, for example the Laboratory for Nano and Quantum Engineering, is expected. The professorship participates in the teaching duties of the Institute in Chemistry education in main and minor courses of study, among others in the Bachelor and Master study courses in Chemistry.

Conditions of appointment are in accordance with § 25, Niedersachsen Higher Education Act (NHG).

Part-time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Equally qualified candidates with disabilities will be given preference.

In its mission statement, Leibniz Universität Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places major value on the intensive guidance and support of its students and on the university's close ties to the region and to Niedersachsen. Its professors are thus expected to take up residence in the Region of Hannover. Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will be given an employment contract.
Further information is available from Prof. Dr. Peter Behrens, Tel. +49 511 762-3660, Email: peter.behrens@acb.uni-hannover.de.

Please submit your full application with the usual documents in electronic form until March 31st, 2018 to
