The Faculty of Natural Sciences invites applications for a

Tenure Track University Professorship (Salary Scale W2 NBesO leading to a W3) for Zoological Biodiversity

starting at the next possible date. The initial appointment will be for 5 years. After positive evaluation the candidate will receive a tenured professorship on the salary scale W3.

The job announcement is part of the Bund-Länder-Programm zur Förderung des wissenschaftlichen Nachwuchses (federal and state program for the promotion of early-career scientists). It aims at researchers at an early career stage with an outstanding potential for a successful career in science.

The holder of the position needs to have excellent international scientific references with a research focus on the biodiversity of insects. Experience in the area of experimental biodiversity research and modelling of ecological processes is required. The professorship is engaged in the teaching responsibilities of B.Sc. and M.Sc. programs in Bio-, Geo- and Plant Sciences and is expected to cooperate in the interdisciplinary Leibniz Research Centres of the university.

Conditions of appointment are in accordance with § 25, Niedersachsen Higher Education Act (NHG).

Part-time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Equally qualified candidates with disabilities will be given preference.

In its mission statement, Leibniz Universität Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places major value on the intensive guidance and support of its students and on the university’s close ties to the region and to Niedersachsen. Its professors are thus expected to take up residence in the Region of Hannover.

Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will be given an employment contract.
Further information is available from Prof. Dr. Hansjörg Küster, Tel. +49 0511 762-3996, Email: kuester@geobotanik.uni-hannover.de.

Please submit your full application with the usual documents until March 30, 2018 by email to biodiversitaet@nat.uni-hannover.de
