The Faculty of Natural Sciences invites applications for a **University Professorship (Salary Scale W 3 NBesO)** in Cell Biology starting at the next possible date.

Applicants are expected to have a strong track record in cell biology. Expected research topics are in the area of innovative approaches for understanding intra- and intercellular communication pathways as well as cell-matrix-interactions. The successful candidate is expected to take an active part in the development and design of the biomedical research and engineering fields at Leibniz Universität Hannover. This will likewise include an effective cooperation with our partner institutions (Hannover Medical School and Helmholtz Centre for infection research).

Conditions of appointment are in accordance with § 25, Niedersachsen Higher Education Act (NHG).

Part-time employment can be arranged on request.

As an equal opportunities employer, Leibniz Universität Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Equally qualified candidates with disabilities will be given preference.

In its mission statement, Leibniz Universität Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places major value on the intensive guidance and support of its students and on the university’s close ties to the region and to Niedersachsen. Its professors are thus expected to take up residence in the Region of Hannover. Successful candidates who have reached the age of fifty by the time of appointment and who do not already have civil servant status will be given an employment contract.

Further information is available from the Dean of the Faculty of Natural Sciences, Prof. U. Schmitz (0511/7625145, schmitz@genetik.uni-hannover.de).

Please submit your full application with the usual documents by email to dekanat@nat.uni-hannover.de until 28.04.2017.
